

International Methanol Conference

Methanol and the Energy Transition

November 5-7, 2024 - Singapore

Lotte Rosenberg

Chief Executive Officer, Carbon Recycling International (CRI)

Lotte Rosenberg is Chief Executive Officer at Carbon Recycling International (CRI). As CEO, her focus is on strategic growth, development of international partnerships, and building up a global pipeline of green and low-carbon intensity methanol projects. Lotte brings extensive leadership experience and a distinguished career within the energy industry to her role at CRI. She has held key positions such as Senior Vice President at Ørsted, Chief Commercial Officer at Nature Energy, and, most recently, Co-CEO at the start-up company WPU, specializing in the upcycling of plastic waste to oil.
